Problem Statement

is becoming/being converted to digital from a physical/analog entity.

It is necessary to access information from anywhere. It reduces the hassles of getting knowledge and information that has happened before and will promote everyone to know better about the current events and will motivate everyone to gain profound knowledge in their interests. It wouldn't look weird when

> Key rules of brainstorming To run an smooth and productive session Stay in topic. Encourage wild ideas. Go for volume. If possible, be visual.

Define your problem statement What problem are you trying to solve? Frame your

problem as a How Might We statement. This will be the focus of your brainstorm.

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
